

Summary Report

The international conference on industry-focused research held on October 12-13, 2023, was an exceptional experience. We were particularly proud to be the youngest participants in the event, and this fact added an extra layer of significance to our presence. Meeting numerous industry experts, directors, and investors who showed a genuine interest in our innovative project, "SEHAT SATHI - A Smart and Automated Medication Dispenser," was truly motivating. We received congratulations and encouragement from these esteemed professionals, recognizing the significance of our work, especially given our youth. The event provided a unique platform for sharing our vision, which combines IoT and AI technologies with a mobile application to tackle medication non-compliance and revolutionize healthcare. The coordination of the event by the Technology Enabling Centre at Panjab University, CII Northern Region Headquarters, Chandigarh, DST-Centre for Policy Research at PU, and the Punjab State Council for Science & Technology was impeccable. Notably, government officials like Prof. Rupinder Tewari and Prof. Manu Sharma added to the event's prestige. In essence, this conference underscored the significance of innovation, collaboration, and the potential for technology to address healthcare

challenges, and it has left us eager to continue our journey toward making a difference in the field of healthcare.

The international conference on industry-focused research was undoubtedly a great success. The event brought together a diverse array of experts, industry leaders, and innovators, providing a unique platform for sharing ideas and exploring the potential of technology transfer. The support from the Department of Science and Technology and the Confederation of Indian Industry, as well as the collaboration of esteemed institutions, made this conference a resounding success.

In conclusion, this event has been a testament to the power of innovation, collaboration, and the potential for technology to drive positive change in various industries, particularly healthcare. I am immensely grateful for the opportunity to be a part of this event and look forward to the future with great enthusiasm, as we continue to develop and refine our ground breaking project, SEHAT SATHI.
